

Approved by the Board of SwissDRG AG on 23 June 2023

With costs of system use (CSU)

## Flat rate per case catalogue

# SwissDRG Version 13.0

Billing version (2024/2024)

As of: 07.07.2023

### Abbreviations:

CC	Complications or Comorbidities
MDC	Major Diagnostic Category
OR	Surgical (Operating Room)
Partition 'O'	Surgical flat rates per case
Partition 'A'	Other flat rates per case, e.g. colonoscopy
Partition 'M'	Medical flat rates per case

### Footnotes:

[1] Inpatient days on which calculation of the flat rate per case is based.

[2] First inpatient day on which a deduction from the flat rate per case needs to be made.

[3] First inpatient day on which a daily fee in addition to the flat rate per case is paid.

[4] There is no bundling of cases in the event of readmission to the same hospital.

[5] If the DRG definition does not allow any minimum length of stay and/or maximum length of stay, the catalogue will not show any values accordingly.

[6] The age details in the DRG designations refer to completed years (e.g. age = 5 years and 3 months = 5 years).

[7] The term early rehabilitation is used within the meaning of the CHOP classification, i.e. the performance of medical and rehabilitation measures during the same stay (see the minimum characteristics for coding defined in CHOP).

[8] As regards the scores for complex intensive care treatment as specified in the DRG designation, the first figure relates to the points for the complex intensive care treatment for children and the second figure relates to the points for complex intensive care treatment for adults.

[9] The DRGs P60A, 960Z and 961Z are not billable.

Flat rate per case catalogue
